Data Submitters

WHA Information Center (WHAIC) has been collecting hospital, ASC and survey discharge data as authorized by the Wisconsin Department of Administration, since 2003 as defined by Chapter 153, Wisconsin Statutes.

Inpatient and outpatient data is collected quarterly through a secure, web-based tool known as **Wipop** to produce public use data sets, custom data sets and three annual publications.

In addition, all Wisconsin hospitals submit Annual, Fiscal, Personnel and Uncompensated Care survey data annually. Data collected from these surveys are used for trending, benchmarking, and other key statistics.

Edits

Summary of Edit – Edits will appear at the top of the page when you save, the section will change color, and will show under the Action Needed on the Hospital Survey Grid once 100% complete.

o Hard Edit – Mathematical or logical error: Edit that must be fixed to submit survey (e.g., fiscal survey line 1 + line 4 must equal line 5).

o Soft Edit – Possible error; values imply unusual situation: Edit that must be verified to submit survey. (e.g., annual survey – line 160 – Admissions are more than 3% higher/lower than inpatient days in Section III. Are you sure?).

o Statistical Comparison (Stats Edits) – Possible error; values are substantially different than reported in previous survey. Edits run after hard and soft edits are addressed. If value is 30% more or less than submitted in previous year, an edit will appear. (e.g., if total gross revenue is \$1.0 million for FY 2016 and \$1.3 million for FY 2017, an edit will appear).

Edits

Edits show up at the top of the survey page. You may correct the edits as you go, or after you have entered all data into the survey.

These are examples of hard edits that you may see at the top of the screen. If you do not have any for that section, it will say “There are no page-level errors”.

2018 Survey Affirmation

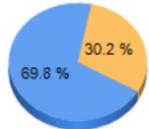

According to the Department of Health Services (DHS) 120.11, hospitals must adhere to standard data verification, review, and comment procedures. This must occur **before** the data is signed on via the affirmation statement.

Portions of the Annual and/or Fiscal survey data is publicly available on the WHAIC website in various [publications](#), custom reports, and [PricePoint](#) to display Payer Mix details for various payers as well as Charity/Other Uncompensated care. For more information and validation of this data, see the Preliminary Fiscal Year Summary Report on the left toolbar.

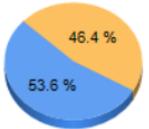

Review the Summary Data in the charts and table below for accuracy. Line items listed in **red** indicate a significant variation of 30% or greater from the previous years reporting. **Review these changes carefully as they are often the focus of public interest. If changes are required for the current year, use the toolbar on the left to reopen the appropriate survey and make the necessary corrections. If no corrections to the figures below are required, but you choose to provide a comment, you may do so prior to submitting your electronic affirmation.*
