

Wipop News

2022 Training

This year, after two years of COVID lockdown, we held four (4) in-person training sessions throughout the state. Some sessions were better attended than others, overall, we had about 150 or so participants. Given the current climate of COVID, staffing shortages, budget constraints, etc. WHAIC will host one virtual session on November 17th from 9:00am-11:00am CST.

The registration link is available at [WHA - Calendar](#) scroll to the Wipop Training date November 17, 2022.

Each facility is responsible for compliance with discharge data submission and must adhere to the State Statutes and calendar timelines. Understanding the data submission process is important. Wisconsin 'Wipop' data collection is based on a modified HIPAA Compliant 837 claim file format. The discharge data submission manual will be reviewed along with the process to sign off on the data and affirm its accuracy. WHAIC collects data pursuant to [Chapter 153](#) of the State Statutes and the requirements as outlined in the Administrative Rule [DHS 120](#).

Do you have an opinion on data submission training? When it should occur, the delivery, the content? If so, please complete this survey so we can deliver the material when and how you need it. [SURVEY](#)

Wipop Reminders

WHA Information Center cares about your data. Please do not share passwords or login information. All new Wipop users must register to the secured portal for access.

The 2023 Wipop [calendar](#) has been posted on our [website](#) additional information may be found under the Data Submitters Tab. Please be timely in your submissions and edits (if possible, submit monthly data.) Reports are available in real-time once the data is uploaded.

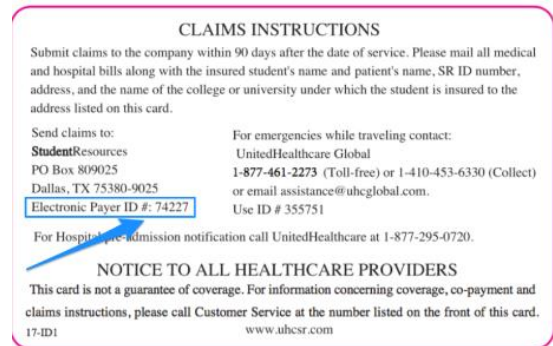

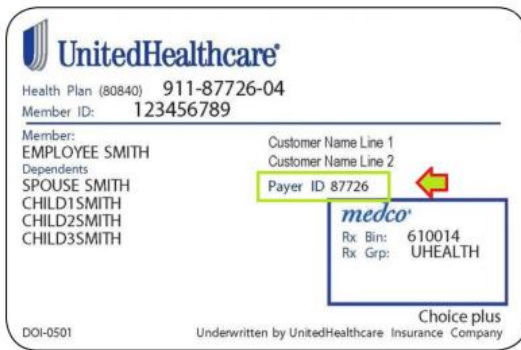

In 2023, the data collection process will include more emphasis on better collection of more than one race, language, and reporting the NAIC # or Payer identification (ID) on the EDI file sent to WHAIC. WHAIC released the mapped payer name in the datasets in Q122; however, to fully capitalize on the value of the payer data,

we need more confidence in our delivery of this data by validating and running comparisons of the Payer ID / NAIC # and actual payer name to the mapped payer data.

The Payer ID is a unique ID assigned to each insurance company. It allows provider and payer systems to talk to one another to verify eligibility, benefits and submit claims. The Payer ID is generally (5) characters. The Payer ID should be provided on the patient’s insurance card and included on the 837claim file.

This information is currently collected by EHRs, practice management systems, registration systems, payer systems, pharmacy systems, etc., basically any systems that participate in the delivery and billing of payers for patient care. Collecting and reporting this field should cause minimal disruption to the verification of it in the file since it’s already required when exchanging billing information with the clearinghouse, payer, or other administrative functions to obtain payment.

The Payer ID may be on the front or the back of the card. Please be sure to share this with the appropriate person(s) in your organization to satisfy the reporting requirements.

Loop	Element / Reference	Field Description	R, S, O	Values/Mapping Comments	Wipoc Field Name/ Field Notes
LOOP ID - 2010BB Payer Detail					
LOOP 2010BB: PAYER NAME					
NM1*PR*1*PRIMARY PAYER NAME*****PI*A21-09~					
2010BB	NM101	Payer Entity ID Code	R	PR = Payer	
2010BB	NM102	Entity Type Qualifier	O	1 = Non-Person Entity *NM102 qualifies NM103	Discarded
2010BB	NM103	Payer Name	S	Name of Payer Organization as provided on the claim.	New Q32019
2010BB	NM108	(Payer) Identification Code	O	PI=Payer Identification	Discarded
2010BB	NM109	Primary Payer Identifier Code *Self-pay requires OTH-61	R	WHAIC Values in Appendix 7.3 Element format is AAA-99 Example A21-09 Primary Source of Payment ID	SOPID is characters 1-3 - SOPTYPE is characters 5-6 The dash is preferred, but not required
2010BB	REF01	REF ID Qualifier for Payer/NAIC#	S	NF = NAIC Code	New Field Q32019: Payer Identifier in the EDI Claims file – routes claim to correct payer.
2010BB	REF02	Payer ID / NAIC #	S	Enter the Value of the Payer ID and/or NAIC#. Generally, this value is found on the patient's insurance ID card. This value directs the claim to the correct payer or plan type (commercial, Medicare, ACA plan, etc.)	Refer to Appendix 7.3.2 for additional info. WHAIC will accept the Payer ID or NAIC value.

Strike a Power Pose!

Jennifer Mueller, Vice President & Privacy Officer, Wisconsin Hospital Association Information Center, recently took her place as the President and Chair of the American Hospital Information Management Association (AHIMA) in anticipation of her term beginning on January 1, 2023. On October 12, 2022, Ms. Mueller gave her first official address at the AHIMA conference in Columbus, Ohio. I am passing along her 12-minute video to showcase her commitment to all Health Information Professionals Ms. Mueller stated in her own words:

“Giving my incoming address [in Columbus, OH] this morning was the moment of a lifetime for me! I’m so honored to be the 2023 President/Chair of the American Health Information Management Association (AHIMA)!! Thank you **all** for your support! My family, friends, colleagues, and my employer, WHA/WHAIC...I am not me without you! You ARE superheroes...and on those days it may not feel like it, strike your #powerpose and it WILL!” <https://www.youtube.com/watch?v=kKoK2ek9fMA>

Jennifer Mueller, MBA, RHIA, SHIMSS, FACHE, FAHIMA
